Vacancy
National Electronic Licensing System
Software Engineer

The Economic Development Board (EDB) is the leading agency mandated by the Government to provide strong institutional support for strategic economic planning, promote Mauritius as an attractive investment and business centre, a competitive export platform as well as an international financial centre.

EDB is looking for dynamic and experienced Software Engineers to join the National Electronic Licensing System project implementation team.

Minimum Qualifications:

- Bachelor’s degree in Software Engineering or equivalent qualifications
- Proficient in JAVA and JS languages and web services interfaces
- At least 2 years relevant work experience in software development
- Conversant with centralized code management and DevOps tools

Duties and Responsibilities:

- Development of front-end and back-end applications using JS, AJAX, J2EE, Maven, Git and IBM WebSphere Application Servers, DB2 and other technologies
- Development of web service components using XML, SOAP, REST API, JSON etc.
- Development and integration of BPM processes in IBM Digital Process Automation platform
- Participate actively in application design, testing, debugging and problem resolution
- Collaborate with analysts, operations team and services providers as needed
- Adopt Agile practices, ensuring agreed deadlines and quality standards

Mode of Application:

Interested candidates must submit their CV and motivation letter online on http://jobs.edbmauritius.org at latest by Monday 17th August 2020 at 14h00. Applications received after the closing date will not be accepted. Only the best qualified candidates will be called for interview.

EDB reserves the right not to make any appointment following this advertisement.

31st July 2020
