5G

Following the National Budget 2021 - 2022, the Economic Development Board (EDB) was entrusted with the responsibility of setting up a Digital industries Academy (DIA)* and to train 1,000 people by next year in the field of Data Communications, 5G, Cloud Computing, Artificial Intelligence and Cyber-Security.

Participants attending those training programs are expected to gain new insights into technology trends that will enhance their career competitiveness.

After successful completion of the chosen course, participants shall be awarded a certificate from Huawei.
